

Engine Oil. Part N^o. A-610

Product Description:

This product is a mixed fleet, multigrade engine oil.

This product is manufactured from highly refined, high viscosity index base oils and carefully balanced mixed fleet additives producing a high quality petrol and diesel engine oil. It offers excellent high temperature stability and stay in grade performance.

Benefits:

- Good passenger car and light commercial performance
- Stay in grade performance
- Cost effective
- Good anti-wear properties

Application:

This product is suitable for normally aspirated and turbo charged diesel engines and petrol engines in passenger cars and light commercials. It is miscible with all synthetic based engine oils.

Product Specification:

API	CD/SF
CCMC	G2/D2
Caterpillar	Series 3
Allison	C-3
Military Spec	Mil-L-2104C

Typical Test Data:

SG @ 15.6 °C	0.884
KV @ 100 °C (cSt)	14.67
KV @ 40 °C (cSt)	112.04
VI	135
Flash Point COC (°C)	217
Pour Point °C	-28
TBN (mg KOH/g)	6.51

Health & Safety (Group 3B):

Please Refer to corresponding Health & Safety Data Sheet

Availability:

This product is available in 25 litre drums
